

# The Marzano Focused Teacher Evaluation Model

A Focused, Scientific-Behavioral Evaluation Model for Standards-Based Classrooms

## Fresh insight for teacher effectiveness Zero in on strategies to support new growth

**The Marzano Focused Teacher Evaluation Model gives teachers and observers a streamlined, student evidence-based system that ensures alignment to standards and helps promote growth in each student and teacher.**

Learning Sciences International (LSI) has translated hours of research to bring you the most effective classroom strategies in a streamlined model that simplifies the evaluation process. The Focused Teacher Model supports instructional strategies to implement standards in every classroom.

Excited about PD's ability to help teachers grow their professional expertise? LSI designed the Marzano Focused Teacher Evaluation Model to sustain learning. LSI believes in investing in each teacher and observer by providing a simplified observation framework focused on what matters most: alignment with the standards.

## Focused Teacher Model Summary of Features

- Four domains of expertise: standards-based planning; standards-based instruction; conditions for learning; and professional responsibilities
- Detailed focus statements are paired with desired effects for each element in the model
- Live and online training and coaching modules simplify adoption
- iObservation® offers teacher support with a library of videos and digitized resources

## Summary of Benefits

**Standards-Based.** The model clarifies how to make the classroom standards-based.

**Focused and Simplified.** Leverages 23 essential core competencies for rigorous, standards-based instruction.

**Transparent.** An evidence-based objective model that provides consistent, accurate feedback.

**Real-World Tested.** Draws on feedback from hundreds of classrooms, schools, and districts.

**Teacher Development.** Includes built-in techniques for teacher reflection and self-assessment.

**Practical.** An embedded instructional framework offers teachers a clear pathway to scaffold instruction.

**Student Evidence-Based.** Relentless emphasis on using student evidence and student formative results.

## Related Resources

Pair the Focused Teacher Model with iObservation to streamline and simplify your evaluation process, and consider adding LSI's Growth Tracker to include job-embedded training and aligned PD for teacher teams.

LSI's professional development for the new Marzano Focused Teacher Evaluation Model is the best I have ever experienced. Our district is excited by the possibilities for teacher and student growth because the model provides support for standards-based classrooms that deliver results.
